Sparkler Jazz
Sparkler Tutus and Tap
Sparkler Ballet
Sparkler Tumbling

From here, there are **two options for your dancer**. There is a difference in commitment and cost. Pick the option that is best for you and your family!

The Club Commitments: This program is for the students who want a fun outlet, opportunities to make friends, perform, and do something athletic. Their team season is from Sep- May. Performance opportunities include: local performances, one local or nearby competition, and an end of the year recital. See team contracts for specific details on the cost and weekly time commitments. If you have an interest in being a part of these teams, register online to reserve a spot for the Fall. In the meantime, check out our summer classes!

The Company Commitments: This program is for the students who are serious about their commitment to dance and are willing to make it their first priority. Company teams are not based on • Friends • Being challenged • Carpools or • Conflicting schedules. Attendance at summer sessions is required for our company teams. Their team season officially starts in August for team choreography- May. Competition opportunities include: 1-3 competitions (depending on your team), 1 convention (optional for Petites), and an end of the year recital. Our lower level competitive teams are encouraged to take hip hop, but it is not required. Our upper level teams are required to compete in hip hop as well.

Other Questions:

- Can my dancer move from a Club team to a Company team? Yes! If your family decides the company side is a good option for your family and dancer, then sign up for extra classes, and/or privates to get them caught up to speed. Please understand that the level of dance skill increases with the number of dedicated hours spent in dance. It is very difficult to be placed on a company team after the age of 10 if dance hours have been 1 or 2 hours a week.
